****Database & Cloud:**** (MongoDB, PostgreSQL, MySQL, Firebase, Cloud Firestore, AWS DynamoDB)

****DevOps & Tools:**** (Git, GitHub Actions, CI/CD Pipelines, Docker, Firebase Functions, Postman, Jest)

****APIs & Services:**** (JWT Authentication, OAuth2, Stripe API, SendGrid, Cloudinary, Google Maps API)

****Methodologies:**** (Agile/Scrum, Microservices Architecture, Test-Driven Development (TDD))

PROFESSIONAL EXPERIENCE

02/2024 – 04/2025 **TechPrime : A venture of Wowerr Technologies., Software Developer** 
Hydrabad(remote), India

- Developed 5+ full-stack apps (React/Node/MongoDB), boosting engagement 30% and cutting load times 40%
- Automated 10+ workflows with Python/Firebase, reducing admin work 75%
- Implemented CI/CD (GitHub Actions/Docker), accelerating deployments 25% and cutting bugs 30%
- Built monitoring scripts (Node/Bash) and auto-recovery, reducing downtime 40%

09/2022 – 01/2024 **Cognic Systems Pvt Ltd (Munshijee.com), System Analyst**
jabalpur, India

- Optimized legacy applications using **performance tuning (caching, query optimization)** and **scalable architecture**, improving load times by **40%** and supporting **50% more concurrent users**.
- Conducted **code reviews** and enforced **best practices** (SOLID principles, unit testing), reducing bug reports by **35%** and accelerating release cycles.
- Collaborated with cross-functional teams (QA, Product) to implement **Agile/Scrum workflows**, improving sprint completion rates by **20%**.

Projects

Medstown - Medicine in 30 mins,
Tech Stack: React Native, Redux Toolkit, Firebase Auth, Node.js , Mongoddb , REST API 

- Built a real-time B2C healthcare app used by **10,000+ users** to order medicine and track health status.
- Enabled **OTP login, push notifications, and geo-location pharmacy listings**.
- Offline-ready via Redux Toolkit & AsyncStorage; improved repeat user rate by **28%**.

Medstown - Store Partner App, React Native, Redux, REST API , Node.js ,express.js ,Recat.js

- Developed role-based system for stores to manage stock/orders; cut manual order entry by **90%**.
- Integrated real-time order alerts, invoice generation, and prescription uploads. • Pharmacy login system with authentication and role-based access.
- Enabled image uploads for prescriptions and medicines.

Medstown – Delivery Partner App,

React, Location Services, Firebase, REST API , Node.js , Express.js ,MongoDb

- Built delivery-side logistics app with **live location**, **OTP confirmation**, and **digital signature capture**, reducing failed deliveries by **22%**.

Medstown Admin Dashboard (Web App),

React.js, Material UI, Redux, Chart.js , Node.js ,Express.js , MongoDB

- Created dashboard to manage pharmacies, orders, users, delivery – handling **thousands of records daily**.
- Added role-based filters, data export (CSV/PDF), and analytics, improving admin task speed by **50%**.
- Integrated data visualization (orders, revenue, active users) with dynamic charts.
- Role-based access for super admin, pharmacy, and delivery accounts. Implemented filters, search, and export features for admin efficiency

Medstown Backend API, Node.js, Express.js, MongoDB, JWT, Cloudinary

- Built secure API system with JWT, OTP, image uploads, and SendGrid emails; scaled to support **5k+ daily requests**.
- Designed and developed scalable REST APIs to support all mobile and web platforms.
- Managed MongoDB schemas for user, order, pharmacy, and delivery agent models.

Canulo - Connecting Healthcare (Full-Stack),

React Native, React.js, Node.js, Express.js, MongoDB, Firebase Auth, Google Maps API

- Built a **cross-platform healthcare app** enabling real-time doctor booking, chat, medicine ordering, and report uploads for 1000+ users.
- Developed responsive **mobile UI** in React Native with Redux Toolkit, integrating **Google Maps** for live clinic tracking.
- Created a secure **admin dashboard (React.js)** for managing appointments, patients, doctors, and clinic data with **role-based access control**.
- Engineered secure REST APIs (Node.js + Express) with **JWT and Firebase Auth** supporting multi-provider login (email, phone).
- Integrated **Cloudinary** for file uploads and **SendGrid** for notifications; added revenue and booking **analytics dashboards** for admin.

Infibite Cards – E-Commerce Platform (Full-Stack),

Next.js React.js, Node.js, Express.js, Firebase, Stripe, PayPal , MongoDB

- Handled 500+ daily transactions.
- Improved performance by 50% via lazy loading and code splitting.
- Integrated payment gateways and secure user flows.

Education

Jabalpur, India **Bachelor of Engineering |Global Engineering College, Jabalpur (MP)** 

Jabalpur, India ****Higher Secondary (12th)****, Modal High School - Jabalpur

AWARDS & HONORS

Scaled healthcare apps to 1,000+ concurrent users Launched e-commerce platform processing 500+ transactions/day with 50% faster UI
